***'Michelle is one of the industry's most experienced Casting Directors,
with an intuitive ability to cast the right person for the role, without fail!'***

My Film/Television career commenced working for a Division of Channel Nine – Video Tape Corporation.

Starting the Casting Couch in 1989 and personally casting literally 100's of television commercials, stills campaigns for national magazines, presenters, short films, corporate videos, student films together with a feature film casting all lead, bit part and extra roles.

Moving to Sydney in January 2000, returning to Melbourne 2003 to continue casting freelance. I then joined for six month's with Lilly Dawson from June to November 2004, casting a number of projects.

December 2004/2005 - Casting Director for the Casting Couch.

2004/2005 - Teaching method drama classes for Screen Actor's studios. Instructing screen audition/screen test workshops for CTCA.

Working as a casting director since 1989, I have given many new stars their first break, including such well known names as **Rahda Mitchell, Portia De Rossi, Livinia Nixon, Lisa McCune and Sam Johnson.**

I feel my intuitive ability and years of experience casting, together with my knowledge of acting, sets me apart from many casting directors.

My objective is to continue working within an industry that is creative and challenging, which enables me to use my talents as a Casting director to continue my love of assisting aspiring young actors be successful in their careers.
